

Senior Designer

Overview

-

DX is looking for a Senior Designer to join our creative team. Someone who loves doing cool stuff with a proven track record in designing commercial work (websites, Packaging, Branding etc). You'll obviously need to love the Internet but primarily you'll love solving problems through great visual design. Changing things, looking at things in new ways, pushing boundaries. This role is not just about someone who can deliver a professional looking website. We're looking for someone whose designs are the end product of great conceptual thinking. Someone who can present, lead on a project and inspire others.

Required

-

- Proficient in Photoshop, Illustrator and Flash
- Strong sense of design, color and typography
- Flexible, positive attitude and the ability to accept constructive feedback
- Strong understanding of interaction design principles and best practices
- Self-starter, able to self-manage work, and adhere to deadlines
- B.A. in Graphic or Interactive Design or equivalent experience

Bonus

-

- Motion graphics and/or other animation skills
- Illustration skills
- Experience designing for iOS and/or Android

Please send your CV with portfolio links and a covering note to: jobs@dx-studio.com
